SAGRA — THE MEANING

The word Sagra denotes a local fair, usually a celebration of the bounties of the earth, meaning food as in a preparation (Sagra di torta di erbe) or a raw ingredient (Sagra di pesce [fish]). There is probably a Sagra somewhere for nearly every food found in Italy.

These Sagra festivals usually celebrate one ingredient per festival and the ingredient being celebrated is usually in season and at its optimum or peak.

Attending a Sagra is a way to get a taste of Italian country life and food culture and get away from tourist crowds. You order food to be cooked by locals with a passion for the local cuisine, then sit at communal tables with other locals to eat.

Larger Sagre (the plural of Sagra) may feature musical bands or stands selling local foods and other items. Sometimes there's a competition of some sort, like a bike race, but these are usually found at a festa, or festival.
